[Customer Service Bot Startup Agent IQ Announces \\$6.3 Million Series A Led By Sierra Ventures](#)

Space Systems

Deliveries of U.S. space systems grew in 2017, driven by a surge in commercial space launches and payloads. In total, 29 U.S. launch vehicles were flown in 2017, up seven units from the previous year, while 268 U.S. manufactured spacecraft, which include satellites, probes, on-orbit vehicles and related platforms, were delivered to U.S. government and commercial customers, up 184 units from 2016.
